

Year 5 Homework Grid

Autumn 1 2022 Why do things change?

Changes in our local environment

<p style="text-align: center;"><u>English</u></p> <p>Our writing focus for this half term is to persuade people. We are going to be writing a letter to persuade and also a speech to persuade.</p> <p>Can you find examples of persuasive writing? Could you write something to persuade someone to change their mind?</p> 	<p style="text-align: center;"><u>Maths</u></p> <p>This term we are focusing on place value. We will be looking at understanding, comparing and ordering numbers up to a million. We will also look at negative numbers and Roman numerals. We will be focusing on addition and subtraction skills too.</p> <p>Find examples of these in real life! You can look at dates in Roman numerals- find examples. Look at where you negative numbers are used- where would you see them. Money is always a great resource for place value- can you partition different amounts and see the links you can make. Find examples of real life- practical maths and bring them to share.</p> 	<p style="text-align: center;"><u>Geography</u></p> <p>We are looking at changes in our local area. Does anyone in your family remember when Gedling was different? Can anyone remember how the area has changed? We are also looking at the new park being developed in Gedling. See if you can gather some information from them or even interview them.</p> 	<p style="text-align: center;"><u>What interests you?</u></p> <p>Do you have a hobby or interest you would like to research or present some information about? Maybe you could create a presentation for us? Do you have something you've always wanted to try? Why not join a new club or learn a new skill? Maybe there's something you'd like to get better at. Set yourself a target and get practising. Tell Lynx class all about it. We're all here to support each other.</p> <p style="text-align: center;">GO TEAM LYNX</p> 
<p style="text-align: center;"><u>Regular weekly activities</u></p> <p>Play on Spelling Shed and Maths Shed a few times a week.</p> <p>Try to read every day or as much as you can- enjoy a story together at home- read to someone, listen to a story too. Come and tell me about a story you've read. I love a new recommendation. Share your ideas with a friend.</p> <p>Practise times tables- how fast can you get?</p>	<p style="text-align: center;"><u>Art/D.T</u></p> <p>We're looking sketching and drawing skills this term. We're also going to build up to a painting.</p> <p>Try and draw as often as you can. They can be mini sketches, small doodles or larger pictures.</p> <p>After we've worked on a skill in school try and practise it at home. Bring your sketches in or send a photograph.</p> <p>Did you know drawing is a mindful activity and is great for relaxing?</p>	<p style="text-align: center;"><u>Music</u></p> <p>Get listening- try and listen to some different pieces of music. Can you listen to a different style of music and also from a different time? We are also learning to play the Ukulele this half term.</p> <p>What did you think? How did it make you feel? What could you hear? Try doodling while listening- what shapes does the music make you think of? Do you play an instrument? Why not work on a piece of perform to us?</p>
