

The Willow Farm Primary School App

It is designed to keep you well informed about your child's education and life in general at school and to help us cut down on paper and ink consumption. We use it to send out important messages and will post school news, events, curriculum information and contact details.

So whether you are out and about with you phone or at home with access to a tablet, you will have a quick and convenient way to find out key information or simply browse.

How to Download the App

You can get the app on Apple or Android devices. Just visit the Apple app store or Google Play on your device and search 'Piota Schools'. It will look like the icon below.

<https://itunes.apple.com/gb/app/piota-schools/id1333103848?mt=8> Apple link

<https://play.google.com/store/apps/details?id=uk.co.piota.schools&hl=en> GB Android link

Once you have downloaded the app, type Willow Farm Primary School when prompted on this page.

Once Willow Farm has been selected, follow the key tips below:-

- Start by visiting the setting page and turn on your child's year groups. The app will then alert you when there is a message specifically for your child's class.
- Also, turn on the 'Urgent' and 'Whole School' groups, this would send you alerts for messages that are for the whole school, for example, a school closure.
- Every new school year, remember to change your settings to your child's new year group.

If you have any problems with the app, please pop into the school office for us to help you get started.
